**Description:**

Malama Ohana Shelter, established in 2017, is dedicated to helping families with children who are experiencing homelessness. Our facility offers 40 family units and provides comprehensive services, including housing assistance, parenting classes, and child development programs. We believe that by addressing the needs of both parents and children, we can foster a stronger, more resilient family unit. Our services also include job training for parents, after-school programs for children, and family therapy sessions. Through a holistic approach, we strive to help families regain stability and transition into permanent housing.
